WHY CHOOSE PHYSICIANS' CHOICE INFUSION PHARMACY

For healthcare providers and patients who value clinical precision and exceptional care, Physicians' Choice Infusion Pharmacy (PCI) delivers safe, rigorously prepared, personalized compounded medications. As a pharmacist-led leader in sterile compounding, PCI brings together exceptional quality, clinical excellence, and the warmth of patient-centered care.

Your health, formulated with precision, and delivered with compassion.

OUR SERVICES

Supporting clinicians and their patients with targeted therapies.

At PCI we ensure you and your patients receive the best possible care. We offer a comprehensive range of compounded medications including: Hormone Replacement Therapy, GLP-1 Weight Management Injectables, Longevity & Wellness Compounds, Sterile Infusion Therapies, Hair Restoration, Pain Management, and more. Financial approval within the hour — delivery within 24 hours.

Quality.

We use highest-quality raw materials compounded under USP 795/797 standards in our sterile facility.

Precision.

Every prescription is formulated to exact specifications for each patient's unique therapeutic needs.

Care.

Our dedicated team works with providers and patients every step of the way — from Rx to delivery.

● PCAB Accredited ● USP 795 & 797 Compliant ● LegitScript Certified ● Licensed in Multiple States ● Fast Financial Approval

Semaglutide / B12	Injection	2mg-0.5mg/mL	1.7mg	28 days	Refrigerate	4 mL (8mg)
Semaglutide / B12	Injection	2mg-0.5mg/mL	2.0mg	28 days	Refrigerate	4 mL (8mg)
Semaglutide / B12	Injection	5mg-0.5mg/mL	2.4mg	28 days	Refrigerate	2 mL (10mg)
Semaglutide / B12	Injection	7.2mg-0.5mg/mL	7.2mg	28 days	Refrigerate	4 mL (28.8mg)

Tirzepatide / B12

Product and Strength	Dosage Form	Conc.	Titration	Days	Storage	Volume
Tirzepatide / B12	Injection	10mg-0.5mg/mL	2.5mg	28 days	Refrigerate	1 mL (10mg)
Tirzepatide / B12	Injection	10mg-0.5mg/mL	5.0mg	28 days	Refrigerate	2 mL (20mg)
Tirzepatide / B12	Injection	10mg-0.5mg/mL	10mg	28 days	Refrigerate	4 mL (40mg)
Tirzepatide / B12	Injection	15mg-0.5mg/mL	7.5mg	28 days	Refrigerate	2 mL (30mg)
Tirzepatide / B12	Injection	15mg-0.5mg/mL	12mg	28 days	Refrigerate	3 mL (45mg)
Tirzepatide / B12	Injection	15mg-0.5mg/mL	15mg	28 days	Refrigerate	4 mL (60mg)

Semaglutide / NAD+

Product and Strength	Dosage Form	Conc.	Titration	Days	Storage	Volume
Semaglutide / NAD+	Injection	2mg-5mg/mL	0.25mg	28 days	Refrigerate	0.5 mL (1mg)
Semaglutide / NAD+	Injection	2mg-5mg/mL	0.50mg	28 days	Refrigerate	1 mL (2mg)
Semaglutide / NAD+	Injection	2mg-5mg/mL	1.0mg	28 days	Refrigerate	2 mL (4mg)
Semaglutide / NAD+	Injection	2mg-0.5mg/mL	1.25mg	28 days	Refrigerate	3 mL (5mg)
Semaglutide / NAD+	Injection	2mg-5mg/mL	1.5mg	28 days	Refrigerate	3 mL (6mg)
Semaglutide / NAD+	Injection	2mg-5mg/mL	1.7mg	28 days	Refrigerate	4 mL (8mg)
Semaglutide / NAD+	Injection	2mg-5mg/mL	2.0mg	28 days	Refrigerate	4 mL (8mg)
Semaglutide / NAD+	Injection	5mg-5mg/mL	2.4mg	28 days	Refrigerate	2 mL (10mg)

Tirzepatide / NAD+

Product and Strength	Dosage Form	Conc.	Titration	Days	Storage	Volume
Tirzepatide / NAD+	Injection	11mg-5mg/mL	2.5mg	28 days	Refrigerate	1 mL (10mg)
Tirzepatide / NAD+	Injection	11mg-5mg/mL	5.0mg	28 days	Refrigerate	2 mL (20mg)
Tirzepatide / NAD+	Injection	11mg-5mg/mL	10mg	28 days	Refrigerate	4 mL (40mg)
Tirzepatide / NAD+	Injection	11mg-5mg/mL	7.5mg	28 days	Refrigerate	2 mL (30mg)
Tirzepatide / NAD+	Injection	15mg-0.5mg/mL	12mg	28 days	Refrigerate	3 mL (45mg)
Tirzepatide / NAD+	Injection	15mg-0.5mg/mL	15mg	28 days	Refrigerate	4 mL (60mg)

Semaglutide / Tirzepatide — Transmucosal Film

Product and Strength	Dosage Form	BUD	Storage	Qty
Semaglutide 0.5 mg	Transmucosal Film	180 days	Refrigerate	4 qty.
Semaglutide 1.0 mg	Transmucosal Film	180 days	Refrigerate	4 qty.
Semaglutide 2.0 mg	Transmucosal Film	180 days	Refrigerate	4 qty.
Tirzepatide 5 mg	Transmucosal Film	180 days	Refrigerate	4 qty.
Tirzepatide 10 mg	Transmucosal Film	180 days	Refrigerate	4 qty.
Tirzepatide 15 mg	Transmucosal Film	180 days	Refrigerate	4 qty.
Tirzepatide 20 mg	Transmucosal Film	180 days	Refrigerate	4 qty.

LONGEVITY & WELLNESS

General Wellness

Product and Strength	Dosage Form	BUD	Storage	Qty
Betahistine 8 mg	Capsule	180 days	Room Temp	90 qty
GHK-Cu 4 mg	Capsule	180 days	Refrigerate	90 qty
GHK-Cu 3.0%	Cream	35 days	Refrigerate	30 gm
Glutathione 200 mg/mL	Injection	45 days	Refrigerate	4 mL
Ivermectin 12 mg	Capsule	180 days	Room Temp	24 qty
Methylcobalamin 2 mg/mL	Injection	45 days	Refrigerate	4 mL
Methylene Blue 12.5 mg	Capsule	180 days	Room Temp	90 qty
Methylene Blue 25 mg	Capsule	180 days	Room Temp	90 qty
NAD+ 100 mg/mL	Injection	45 days	Refrigerate	3 mL
NAD+ 200 mg/mL	Injection	45 days	Refrigerate	8 mL
NAD+ 200 mg/mL	Nasal Spray	90 days	Refrigerate	10 mL
Naltrexone (LDN) 1.5 mg	Capsule	180 days	Room Temp	30 qty
Naltrexone (LDN) 3.0 mg	Capsule	180 days	Room Temp	30 qty
Naltrexone (LDN) 4.5 mg	Capsule	180 days	Room Temp	30 qty
Oxytocin 100 U/mL	Injection	45 days	Refrigerate	5 mL

INFUSION PRODUCT REFERENCE

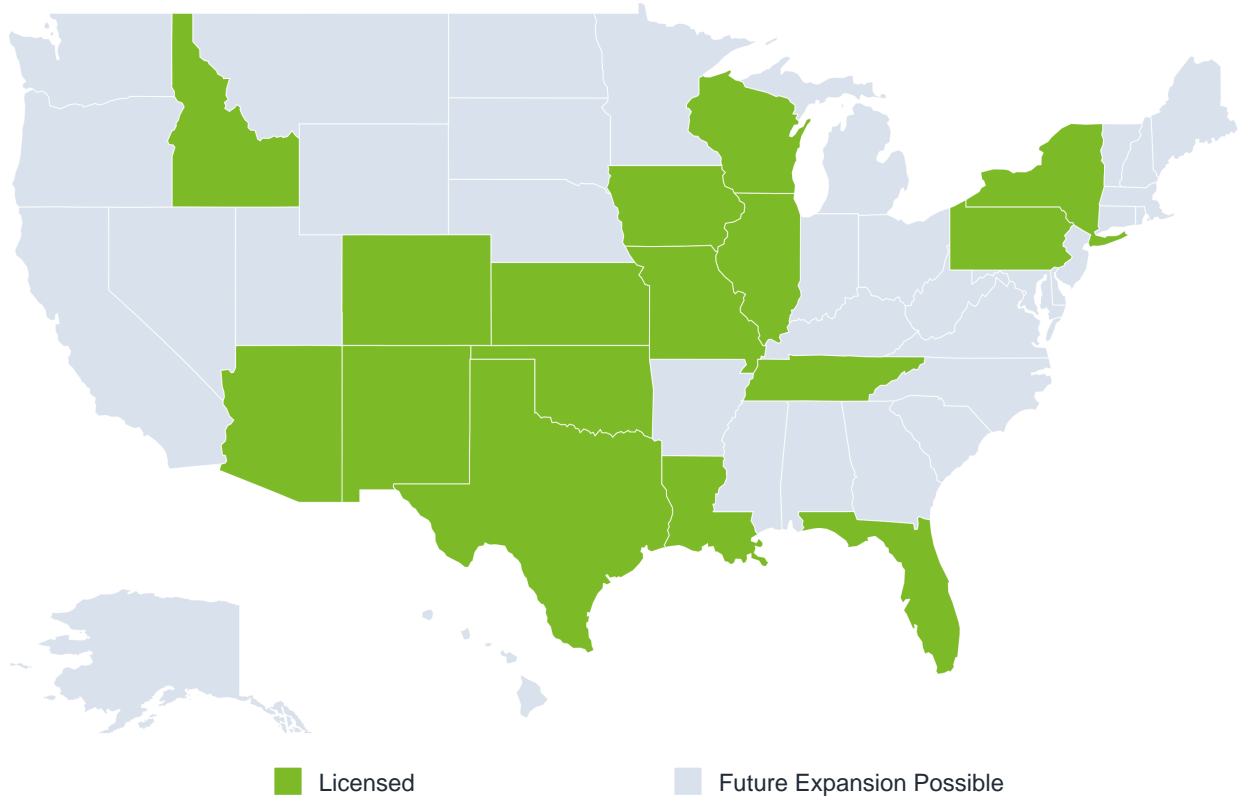

Immune Globulin & Biologic Infusion Products

Reference Information — Indication, MOA / Route, IgA Content

Product	Indication	MOA / Route	IgA Content
IMMUNE GLOBULIN PRODUCTS			
Gamunex-C	Primary/Secondary Immunodeficiency, ITP, CIDP, MMN	IVIG / SCIG (10%)	~46 mcg/mL (trace)
Gammagard Liquid	Primary Immunodeficiency, CIDP, MMN	IVIG / SCIG (10%)	<1 mcg/mL (IgA deficient formulation)
Octagam	Primary Immunodeficiency, ITP	IVIG (5% and 10%)	5%: 200 mcg/mL; 10%: 160 mcg/mL
Privigen	Primary Immunodeficiency, ITP, CIDP	IVIG (10%)	≤25 mcg/mL (trace)
Panzyga	Primary Immunodeficiency, ITP, CIDP, Secondary Immunodeficiency	IVIG (10%)	≤200 mcg/mL
Hizentra	Primary Immunodeficiency, CIDP (maintenance)	SCIG (20%)	<50 mcg/mL (trace)
HyQvia	Primary Immunodeficiency	SCIG (10%) + recombinant hyaluronidase	<140 mcg/mL
Xembify	Primary Immunodeficiency	SCIG (20%)	<37 mcg/mL (trace)
Alyglo	Primary Immunodeficiency	IVIG (5%)	≤200 mcg/mL
Asceniv	Primary Immunodeficiency (high RSV titer)	IVIG (10%)	≤500 mcg/mL
Cutaquig	Primary Immunodeficiency	SCIG (16.5%)	<80 mcg/mL (trace)
Cuvitru	Primary Immunodeficiency	SCIG (20%)	<200 mcg/mL
Gammaked	Primary Immunodeficiency, ITP, CIDP, MMN	IVIG / SCIG (10%)	~46 mcg/mL (trace) — same formulation as Gamunex-C
Gammaplex	Primary Immunodeficiency, ITP	IVIG (5% and 10%)	5%: ≤10 mcg/mL; 10%: ≤10 mcg/mL (very low IgA)
OTHER BIOLOGIC PRODUCTS			
Aralast NP	Alpha-1 Antitrypsin Deficiency (AATD)	Alpha-1 Proteinase Inhibitor — augmentation therapy (IV)	
Entyvio (vedolizumab)	Ulcerative Colitis, Crohn's Disease	Anti-integrin (anti-α4β7) monoclonal antibody (IV & SC)	
Inflectra (infliximab-dyyb)	RA, AS, PsA, Ps, CD, UC	Anti-TNF-α monoclonal antibody (biosimilar to Remicade) — IV	
Infliximab (generic/biosimilar)	RA, AS, PsA, Ps, CD, UC	Anti-TNF-α monoclonal antibody — IV	
Remicade (infliximab)	RA, AS, PsA, Ps, CD, UC, Pediatric CD & UC	Anti-TNF-α monoclonal antibody (reference product) — IV	
Renflexis (infliximab-abda)	RA, AS, PsA, Ps, CD, UC	Anti-TNF-α monoclonal antibody (biosimilar) — IV	
Rituxan (rituximab)	NHL, CLL, RA, GPA, MPA, Pemphigus Vulgaris	Anti-CD20 monoclonal antibody — IV	
Ruxience (rituximab-pvvr)	NHL, CLL, GPA, MPA	Anti-CD20 monoclonal antibody (biosimilar) — IV	
Ultomiris (ravulizumab)	PNH, aHUS, gMG, NMOSD	Anti-C5 complement inhibitor — IV	
Vyvgart (efgartigimod alfa)	Generalized Myasthenia Gravis (gMG)	FcRn antagonist — reduces IgG antibodies — IV	
Vyepti (eptinezumab)	Migraine Prevention	Anti-CGRP monoclonal antibody — IV	
Simponi Aria (golimumab)	RA, PsA, AS, Pediatric PsJIA	Anti-TNF-α monoclonal antibody — IV	
Stelara (ustekinumab)	Ps, PsA, CD, UC	Anti-IL-12/23 (anti-p40) monoclonal antibody — IV induction then SC	
Actemra (tocilizumab)	RA, PJIA, SJIA, GCA, CSS (CAR-T toxicity)	Anti-IL-6 receptor monoclonal antibody — IV & SC	
Tepezza (teprotumumab)	Thyroid Eye Disease (TED)	Anti-IGF-1R monoclonal antibody — IV	
Benlysta (belimumab)	Active SLE, Lupus Nephritis	Anti-BLyS (BAFF) monoclonal antibody — IV & SC	
Tysabri (natalizumab)	Relapsing MS, Moderately-to-Severely Active CD	Anti-α4 integrin monoclonal antibody — IV	
Briumvi (ublituximab)	Relapsing MS (CIS, RRMS, SPMS with relapses)	Anti-CD20 monoclonal antibody — IV	
Injectafer (ferric carboxymaltose)	Iron Deficiency Anemia (IDA) — intolerant to oral iron or non-dialysis-dependent CKD	IV iron replacement (non-dextran) — IV	
Orencia (abatacept)	RA, PJIA, PsA	CTLA-4-Ig (T-cell co-stimulation blocker) — IV & SC	
Xolair (omalizumab)	Moderate-Severe Persistent Allergic Asthma, CIU, Nasal Polyps, IgE-mediated food allergy	Anti-IgE monoclonal antibody — SC	
Cimzia (certolizumab pegol)	RA, AS, nr-axSpA, PsA, Ps, Crohn's Disease	PEGylated anti-TNF-α Fab fragment — SC	
Kisunla (donanemab)	Early Symptomatic Alzheimer's Disease (mild cognitive impairment / mild dementia)	Anti-amyloid beta (N3pG) monoclonal antibody — IV	

PHARMACY LICENSURE

States We Serve

Our pharmacy is fully licensed in **Arizona, Colorado, Florida, Idaho, Illinois, Iowa, Kansas, Louisiana, Missouri, New Mexico, New York, Oklahoma, Pennsylvania, Tennessee, Texas, and Wisconsin**, ensuring comprehensive coverage for patients across these states. If you don't see your state on the list, we are always open to expanding and are committed to offering our services to even more communities in the future.
